Deadline: 26 January 2018

The Sports Company of
Trinidad and Tobago

DUTIES AND RESPONSIBILITIES

- Assemble, install, test and maintain electrical or electronic wiring, equipment, appliances, apparatus and fixtures, using hand tools and power tools
- Diagnose malfunctioning systems, apparatus and components, using test equipment and hand tools, to locate the cause of a breakdown and correct the problem
- Connect wires to circuit breakers, transformers or other component
- Inspect electrical systems, equipment and components to identify hazards, defects and the need for adjustment or repair, and to ensure compliance with codes
- Advise management on whether continued operation of equipment could be hazardous
- Prepare sketches or follow blueprints to determine the location of wiring and equipment and to ensure conformance to building and safety codes
- Use a variety of tools and equipment such as power construction equipment, measuring devices, power tools and testing equipment including oscilloscopes, ammeters and test lamps
- Repair or replace wiring, equipment and fixtures, using hand tools and power tools
- Work from ladders, scaffolds and roofs to install, maintain or repair electrical wiring, equipment and fixtures
- Place conduit (pipes or tubing) inside designated partitions, walls, or other concealed areas and pull insulated wires or cables through the conduit to complete circuits between boxes.
- Construct and fabricate parts, using hand tools and specification
- Fasten small metal or plastic boxes to walls to house electrical switches or outlets
- Perform physically demanding tasks, such as digging trenches to lay conduit and moving and lifting heavy objects
- Provide preliminary sketches and cost estimates for materials and services
- Conduct all duties in conformance with Health, Safety, Security and Environment (HSSE) requirements
- Perform any other related duties as required by the job function.

MINIMUM QUALIFICATIONS AND EXPERIENCE

- Electrical Installation Diploma (for Wireman's License)
- OSH Certification would be an asset
- Minimum of five (5) years technical and trade experience or any equivalent combination of qualification and experience

COMPETENCIES

- Maintain current electrician's license or identification card to meet governmental regulations.
- Display critical thinking, technical troubleshooting and root cause analysis skills.
- Demonstrate a high degree of initiative combined with a commitment to high quality work standards.
- Knowledge and understanding of Health and Safety Regulations.
- Excellent interpersonal skills.
- Ability to work both independently and as part of a team.
